MPX International Corporation

Notes to the interim condensed consolidated financial statements (unaudited)

(in Canadian dollars)

March 31, 2020

1. Nature of operations and going concern

Background

2660528 Ontario Inc. was incorporated on October 17, 2018 and changed its name to MPX International Corporation ("MPXI" or the "Corporation") on November 13, 2018. On February 5, 2019, MPXI completed a spin-out transaction, pursuant to a plan of arrangement (the "Arrangement") with MPX Biocetical Corporation ("MPX") and iAnthus Capital Holdings Inc. ("iAnthus"). The Corporation's common shares (the "MPXI Shares") commenced trading on the Canadian Securities Exchange under the ticker symbol 'MPXI' on February 6, 2019.

MPXI is a multinational diversified cannabis company focused on developing and operating assets across the global medical and adult use cannabis industry with an emphasis on cultivating, manufacturing and marketing products that include cannabinoids as their primary active ingredient. MPXI's registered office is located at 5255 Yonge Street, Suite 701, Toronto, ON, M2N 6P4, Canada.

Going concern

The Corporation's continued existence as a going concern is dependent upon, amongst other things, its ability to continue to obtain adequate ongoing debt and/or equity financing with creditors, officers, directors, and stakeholders. In addition, the Corporation must also ultimately become profitable. These unaudited interim condensed financial statements have been prepared on the basis that the Corporation is a going concern and do not include adjustments that would be necessary should the Corporation be unable to continue as a going concern. Such adjustments may be material.

During the three and six months ended March 31, 2020, the Corporation incurred a net loss of \$2,371,748 and \$6,778,673, respectively (three and six months ended March 31, 2019 – net loss of \$3,600,923 and 5,079,768, respectively), and as of March 31, 2020, the Corporation has an accumulated deficit of \$13,576,939 (September 30, 2019 – \$6,798,266). The ability of the Corporation to carry out its business plan rests with its ability to secure additional equity and other financing. Although the Corporation has been successful in obtaining financing from related parties and private placements in the past, the Corporation will likely require continued support. These material uncertainties cast significant doubt about the Corporation's ability to continue as a going concern.

2. Basis of preparation

Statement of compliance

These unaudited interim condensed financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and should be read in conjunction with the Corporation's last annual consolidated financial statements as at and for the year ended September 30, 2019 ("Last Annual Financial Statements"). They do not include all information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Corporation's financial position and performance since the Last Annual Financial Statements.

These unaudited interim condensed financial statements were approved by the Board of Directors and authorized for issue by the Board of Directors on July 10, 2020.

3. Significant accounting policies

(a) Critical accounting judgements and estimates

In preparing these unaudited interim condensed financial statements, the Corporation's management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by the Corporation's management in applying the Corporation's accounting policies and the key sources of estimation uncertainty were the same as those described in the Last Annual Financial Statements, except for the new significant judgements related to the lessee accounting under IFRS 16, which is described in Note 4.

Fair value measurements

Certain of the Corporation's (financial) assets and liabilities are measured at fair value. In estimating fair value, the Corporation uses market-observable data to the extent it is available. In certain cases where Level 1 inputs are not available the Corporation will engage third party qualified valuers to perform the valuation.

Information about the valuation techniques and inputs used in determining the fair value of biological assets is disclosed in Note 8, the acquired intangible assets in Note 10 and financial instruments in Note 23.

4. Changes in significant accounting policies

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Last Annual Financial Statements.

The changes in accounting policies are also expected to be reflected in the Corporation's consolidated financial statements as at and for the year ending September 30, 2020.

The Corporation has initially adopted IFRS 16 Leases on October 1, 2019. Several other new standards are effective for the Corporation beginning October 1, 2019, however they did not have a material effect on the Corporation's financial statements.

IFRS 16 – Leases

In January 2016, the IASB issued IFRS 16, which specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize right-of-use assets and lease liabilities for all leases unless the lease term is 12 months or less or the underlying asset is of low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17 Leases.

Previously, the Corporation determined at contract inception whether an arrangement was or contained a lease under IFRIC 4 Determining Whether an Arrangement contains a Lease. The Corporation now assesses whether a contract is or contains a lease based on the new definition of a lease. Under IFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. On transition to IFRS 16, the Corporation elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Corporation applied IFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed. Therefore, the definition of a lease under IFRS 16 has been applied only to contracts entered into or changed on or after October 1, 2019. At inception or on reassessment of a contract that contains a lease component, the Corporation allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which it is a lessee, the Corporation has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

Notes to the interim condensed consolidated financial statements (unaudited)

(in Canadian dollars)

March 31, 2020

4. Changes in significant accounting policies (continued)

IFRS 16 – Leases (continued)

The Corporation leases assets, i.e. properties and facilities. As a lessee, the Corporation previously classified leases as operating or finance leases based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under IFRS 16, the Corporation recognises right-of-use assets and lease liabilities for most leases - i.e. these leases are on-balance sheet. However, the Corporation has elected not to recognise right-of-use assets and lease liabilities for some leases of low-value assets. The Corporation recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term. The Corporation presents right-of-use assets separately from 'property, plant and equipment' which includes the underlying assets. As at March 31, 2020, the carrying amount of property right-of-use assets is \$5,028,271 (October 1, 2019 – \$4,143,052). The Corporation presents lease liabilities separately from other liabilities in the statement of financial position.

Significant accounting policies

The Corporation recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently depreciated using the straight-line method from the commencement date to the end of the lease term and adjusted for impairment losses as well as certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Corporation's incremental borrowing rate. Generally, the Corporation uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The Corporation makes assumptions and estimations in the determination of the incremental borrowing rates used to calculate the present value of lease payments. Further, it has applied judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Corporation is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

Previously, the Corporation classified property leases as operating leases under IAS 17. The leases include offices and stores, for which the Corporation makes fixed monthly payments. Some leases include an option to renew the lease for an additional five years after the end of the non-cancellable period.

At transition, for leases classified as operating leases under IAS 17, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate as at October 1, 2019. The Corporation measures the right-of-use assets for all leases at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

The Corporation used the following practical expedients when applying IFRS 16 to leases previously classified as operating leases under IAS 17.

- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term.
- Excluded initial direct costs from measuring the right-of-use asset at the date of initial application.
- Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

Right-of-use assets	\$ 4,143,052
Lease liabilities	\$ 5,011,571

The difference between the right-of-use assets and additional lease liabilities on transition does not result in an impact on retained earnings. This is explained by the previously recorded lease inducements. The previously recorded lease inducement liabilities derecognized and included in the right-of-use assets on transition.

When measuring lease liabilities for leases that were classified as operating leases, the Corporation discounted lease payments using its incremental borrowing rate at October 1, 2019. The weighted-average rate applied is 8.27%.

	<u>Sept 30, 2019</u>
Operating lease commitment at Sept 30, 2019	\$ 4,917,865

(a) Business combinations completed in the six months ended March 31, 2019

Acquisition of Spartan

On October 22, 2018, 100% of Spartan Wellness Corporation were acquired by the Corporation (the "Spartan Acquisition"). Spartan is a Canadian organization whose mission is to help veterans suffering from various ailments, mostly psychological, to reduce or eliminate dependencies on opioids by directing them towards medical cannabis. The Corporation plans to utilize Spartan as an additional sales channel to ensure continued growth in its patient user base and expects that Spartan will convert much of its pre-existing patient base over to Canveda Inc. ("Canveda"), a wholly-owned subsidiary of MPXI and a licenced cultivator, processor and seller under the *Cannabis Act* (Canada) (the "Cannabis Act"). In addition to this valuable patient network, the acquisition of Spartan is expected to immediately contribute to revenue growth at the Corporation as Spartan receives sales commission from the licenced producers that supply its patients with cannabis.

The purchase price is satisfied through the issuance of 4,687,500 common shares of MPX Bio (the "MPX Bio Shares") and 1,304,348 MPX Bio common share purchase warrants ("MPX Bio Warrants") each exercisable into one MPX Bio Share at an exercise price of \$1.15 for a period of three years from the closing date. Part of these MPX Bio Shares and MPX Bio Warrants are to be issued contingent upon the achievement of certain cumulative milestones related to the sale of cannabis:

- 1) The total aggregate sales attributable to Spartan of 200,000 Cannabis Sales Units¹ during the period beginning on the Spartan Closing Date and ending on the date that is twenty-four (24) months from July 29, 2019 being the date on which Canveda became fully licenced to produce, distribute and sell cannabis (the "Sales Period") attributable to the Spartan (achieved);
- 2) The total aggregate sales attributable to Spartan of 485,000 Cannabis Sales Units¹ during the Sales Period of which 90,000 Cannabis Sales Units are sold by Canveda.
- 3) The total aggregate sales attributable to Spartan of 885,000 Cannabis Sales Units¹ during the Sales Period of which 315,000 are sold by Canveda;
- 4) The total aggregate sales attributable to Spartan of 1,290,000 Cannabis Sales Units¹ during the Sales Period of which 570,000 are sold by Canveda

¹ "Cannabis Sales Unit" means 1 cannabis sales unit, which is deemed to be 1 gram of dried cannabis or equivalent amount of a class of cannabis specified in Schedule 3, "Equivalent Amounts", of the Cannabis Act, being: (a) 1 gram of dried cannabis; (b) 5 grams of fresh cannabis; (c) 15 grams of solids containing cannabis; (d) 70 grams of non-solids containing cannabis; (e) 0.25 grams of solid or non-solid concentrates; or (f) 1 cannabis plant seed; however, notwithstanding the equivalence formula in the Cannabis Act (Canada), for the purposes of determining the Cannabis Sales Units, cannabis oils shall be converted to grams of dried cannabis according to the equivalency supplied by the selling licenced producer as indicated on their website and the label on each product as required by the *Access to Cannabis for Medical Purposes Regulations*.

The Spartan Acquisition has been accounted for as a business combination. The following table summarizes the allocation of the purchase price of \$4,871,955 to the identifiable assets and liabilities of the Spartan Acquisition. The assets acquired and liabilities assumed are to be recorded at their estimated fair market values, which are based on management estimates.

(i) Goodwill

The goodwill is attributable to the patient network, workforce and profitability of Spartan.

(ii) Consideration paid

Based on current trends and historical monthly sales, the Corporation expects the cumulative sales milestones related to the contingent consideration to be achieved in the fiscal year 2020 and 2021. The Corporation has measured the contingent consideration payable based on all milestones being achieved in advance of the expiry of the agreement in October 2022. As at the acquisition date, the Corporation has estimated the liability at \$3,796,561. The Corporation has used the present value method with a discount rate of 10% to measure this liability as at March 31, 2020. The fair value of the MPX Bio Shares is estimated using the quoted share price of \$1.04 at the date of acquisition. The fair value of the MPX Bio Warrants is estimated using the Black Scholes option pricing model with the following assumptions: (i) expected dividend yield of 0%; (ii) expected volatilities 91.23%; (iii) risk free interest rates of 2.28%; (iv) MPX Bio Share price of \$1.04; forfeiture rate of 0; and (v) expected life of 0.98 – 2.56 years. The expected volatilities are based on the historical trading prices of similar companies.

Revenue and profit contribution

Spartan contributed revenues of \$422,017 and net profit of \$43,050 to the Corporation for the period from October 22, 2018 to March 31, 2019. If the acquisition had occurred on October 1, 2018, consolidated pro-forma revenue and net profit for the six months ended March 31, 2019 would have been \$424,868 and \$11,401, respectively.

Acquisition related costs

The Corporation also agreed to pay a 5% finder's fee (transaction costs) equal to \$43,750 through the issuance of 39,062 MPX Bio Shares as well as 5,434 MPX Bio Warrants exercisable at \$1.15 for a period of three years. The transaction costs have been expensed as they were incurred.

5. Acquisitions (continued)

(b) Asset acquisitions completed in the six months ended March 31, 2019

Acquisition of MPX Australia

On February 15, 2019 (1% for no consideration) and July 22, 2019 (49%), the Corporation completed the acquisition of all of the remaining outstanding shares (50%) of MPX Australia. On July 22, 2019, the Corporation obtained control over MPX Australia (the "MPX Australia Acquisition"). At the date of acquisition, MPX Australia was in the process of the build out of a facility in Launceston, which is intended to be in production by mid 2020. The facility is intended to be used for indoor cultivation, extraction and manufacture of medical cannabis products. The acquisition of the remaining interests in MPX Australia is another milestone for the Corporation's international expansion strategy that will provide MPX International with access to the growing Australian market and will also serve as the Corporation's gateway into the Asian markets.

The total purchase price for the acquisition of the remaining 49% of the outstanding shares is paid through the issuance of up to 7,145,559 MPXI Shares to the shareholders of MPX Australia. The shares are to be released to the shareholders of MPX Australia upon the satisfaction of certain milestones:

1. 2,689,189 MPXI Shares upon the granting of the medicinal cannabis license (cultivation and production) in Australia in accordance with the Narcotic Drugs Act 1967 (granted);
2. 2,151,351 MPXI Shares upon the completion of the Launceston Facility in Tasmania, Australia, being the issue of an occupancy certificate by a governmental entity; and
3. 2,305,019 MPXI Shares upon the earliest of: (i) the first successful harvest; (ii) the first material export; or (iii) immediately prior to the closing or occurrence of a change of control of MPX Australia.

The contingent consideration is treated as an executory payment and is excluded from the initial measurement of the asset acquisition. On February 3, 2020, the Corporation issued 2,689,189 MPXI shares as consideration for the satisfaction of the first milestone (see Note 15). The common shares were measured at fair value using the quoted share price of \$0.42 on the date of issue for a total of \$1,129,459 and has been recorded in intangible assets.

In addition, the Corporation issued 327,123 MPXI Shares to satisfy the principal as well as the accrued and unpaid interest on a loan incurred by MPX Australia from the lender in the aggregate amount of \$137,392.

The acquisition of MPX Australia has been accounted for as an asset acquisition. The following table summarizes the assets acquired and liabilities assumed of MPX Australia Acquisition on July 22, 2019, which have been recorded at their relative fair values:

Acquisition of Kaajenga

On December 3, 2019, the Corporation completed the acquisition of all of the remaining outstanding shares (80%) of 2702148 Ontario Inc. dba Kaajenga Cannabis ("Kaajenga"). On December 3, 2019, the Corporation obtained control of Kaajenga (the "Kaajenga Acquisition"), securing the exclusive rights to a turnkey video learning and engagement platform for the cannabis industry. At the date of acquisition, Kaajenga had developed and was in the process of commercializing a Cannabis Kiosk Solution using its proprietary video learning and engagement rewards platform to activate, educate, and engage audiences through a private social learning network.

The total purchase price for the Kaajenga Acquisition is paid through the issuance of 3,224,247 MPXI Shares and 3,224,247 MPXI share purchase warrants to the shareholders of Kaajenga. Each warrant entitles the holder thereof, pursuant to and in accordance with the warrant certificates, to acquire one MPXI Share at a price of \$0.61 per MPXI Share for a period of 5 years.

The Kaajenga Acquisition has been accounted for as an asset acquisition. The following table summarizes the assets acquired and liabilities assumed of Kaajenga on December 3, 2019, which have been recorded at their relative fair values:

Acquisition of First Growth

On February 19, 2020, the Corporation completed the acquisition of 80% of the issued and outstanding shares of First Growth Holdings Proprietary Limited ("First Growth"), pursuant to the terms and conditions of an investment agreement dated February 19, 2020 and royalty agreement dated February 19, 2020 (the "First Growth Acquisition").

The total purchase price for the First Growth Acquisition is paid through the issuance of warrants with a total exercise price of up to US \$5,000,000, royalty payments paid on a quarterly basis, and a put option on an outstanding note payable due from First Growth to Simonsberg Cannabis Proprietary Limited ("Simonsberg"), the 20% shareholder of First Growth. Transaction costs of \$508,142 were incurred relating to the acquisition.

The warrants are to be issued in tranches upon the satisfaction of certain milestones to Simonsberg for a term of three years at an exercise price equal to the greater of (a) C\$0.35 with respect to Warrant B and C and C\$0.42 with respect to Warrant D, E and F; and (b) the 5-day volume average weighted price ("WWAP") on the day the respective milestone is met, unless otherwise indicated below:

1. Warrant A: Total exercise price of US\$500,000 on receipt of a cultivation, import/export license (the "License") from the South African Health Products Regulatory Authority ("SAHPRA"). The warrants will have an exercise price equal to C\$0.35 per MPXI Share.
2. Warrant B: Total exercise price of US\$500,000 on receipt of the License.

3. Warrant C: Total exercise price of US\$1,000,000 upon successful cultivation and processing of 1,000 kg of Good Agricultural and Collection Practices ("GACP") grade dried flower.
4. Warrant D: Total exercise price of US\$1,500,000 upon successful cultivation and processing of a further 5,000 kg of GACP grade dried flower.
5. Warrant E: Total exercise price of US\$500,000 on the earlier of (i) receipt of an extraction and manufacturing license from SAHPRA and (ii) 12 months from the date that First Growth receives the License, if MPXI has not approved plans to build and fund an EU-GMP compliant extraction and manufacturing facility.
6. Warrant F: Total exercise price of US \$1,00,000 on the earlier of (i) delivery of 100 kg EU-GMP grade cannabis extract through First Growth's lab facility and (ii) 12 months from the date that First Growth receives the License, if MPXI has not approved plans to build and fund an EU-GMP compliant extraction and manufacturing facility.

The number of Warrants to be issued will be calculated using the currency of conversion exchange posted by the Bank of Canada as at the date of the achievement of the applicable milestone and dividing the total exercise price by the exercise price of the warrants.

Royalty payments will be paid as follows:

1. Up to the February 19, 2022, quarterly royalty payments of US \$0.10 per gram of shipped dried cannabis flower.
2. From February 20, 2022 until the termination of the agreement quarterly royalty payments of US \$0.10 per gram shipped dried cannabis flower and US \$0.10 per gram of dried cannabis flower held in the vault for 120 days after the period end.

The Corporation will have the option to buy out the royalty agreement 2 years after the successful cultivation and processing of 1,000 kg of GACP grade dried flower. The buy-out fee will be calculated as the greater of (i) US\$1,500,000 or (ii) the royalty fee actually paid and received during the prior 12 months multiplied by an NPV factor of 3.5 years at 10% (2.844662). The payee will have the option to convert the buy-out fee into MPXI Shares converted at a price per share of the greater of (i) \$0.35 per share or (ii) a 25% discount to the 5-day VWAP on the date of the buy-out. The number of MPXI shares to be issued will be calculated using the currency of conversion exchange posted by the Bank of Canada on the date of the buy-out. Any Warrants to be issued that have not vested or been satisfied will become fully vested on the effective date of the buy-out at an exercise price equal to the greater of (i) \$0.35 or (ii) a 25% discount to the 5-day VWAP of the MPXI Shares on the effective date of the buy-out and will be calculated using the currency of conversion exchange posted by the Bank of Canada on the date of the buy-out.

Additionally, the Corporation granted a put option on an outstanding promissory note payable from First Growth to Simonsberg (see Note 15). The option gives Simonsberg the right to assign the promissory note to the Corporation in exchange for MPXI Shares. The number of MPXI shares shall be calculated as the aggregate amount due, including principal and interest, divided by \$0.35, using the currency of conversion exchange posted by the Bank of Canada on the date of exercise. The put option will be exercisable upon closing the First Growth Acquisition and the receipt of the License.

Contingent consideration is treated as executory payments and is excluded from the initial measurement of the asset acquisition.

8. Biological assets

Biological assets consist of planted seeds and cannabis plants. The changes in the carrying value of biological assets for the period ended March 31, 2020 are as follows:

	March 31, 2020	September 30, 2019
Balance, beginning of period	\$ 6,404,755	\$ 40,552
Acquired biological assets	-	410,895
Net increase in fair value less cost to sell due to biological transformation	1,245,436	5,150,607
Net increase in biological assets due to capitalized costs	586,049	2,369,965
Transferred to inventory upon harvest	(8,365,424)	(1,513,151)
Net foreign exchange differences	644,157	(54,113)
Balance, end of period	\$ 514,973	\$ 6,404,755

Management has made the following estimates in the cannabis plants model:

- Average number of days in the growing and processing cycle;
- Average harvest yield, which incorporates estimates around wastage;
- Average selling price, which varies depending on strains;
- Standard costs to grow and process, which varies depending on location; and
- Average costs to sell.

The fair value of biological assets is determined based on a Level 3 valuation. In Management's view, the significant unobservable inputs and their range of values are noted in the table below. The sensitivity analysis for each significant input is performed by assuming a 5% decrease while assuming all other inputs remain constant:

Significant unobservable inputs	Range	Weighted Average	Sensitivity	Decrease in fair value of biological assets at March 31, 2020
Average harvest yield, which incorporates estimates around wastage	47 grams to 172 grams per plant	85 grams per plant	A 5% decrease in the expected yield per plant would result in a significant decrease in fair value, and vice versa.	\$25,306
Average selling prices, which varies depending on strain	\$1.90 to \$7.23 per gram	\$5.26 per gram	A 5% decrease in the selling price per strain would result in a significant decrease in fair value, and vice versa.	\$25,306
Standard costs	\$1.17 per gram	\$1.17 per gram	Standard costs are used to attribute fair value based on the plant's stage of growth. Changes to standard costs relative to the plant's stage of growth do not change the fair value.	N/A
Stage of growth	1 to 16 weeks	1 weeks	A decrease of 1 week in the stage of growth would result in a significant decrease in fair value, and vice versa.	\$45,203

8. Biological assets (continued)

The Corporation estimates the harvest yields for the cannabis on plants at various stages of growth. As at March 31, 2020, it is expected that the Corporation's cannabis plants biological assets will yield approximately 429,420 grams (September 30, 2019 – 89,727,545 grams) of cannabis for processing when harvested. The Corporation's estimates are, by their nature, subject to change and differences from the anticipated yield will be reflected in the gain or loss on biological assets in future periods.

The effect of changes in the fair value of biological assets and inventory during the periods ended March 31, 2020 and September 30, 2019 is as follows:

	<u>March 31,</u> <u>2020</u>	September 30, <u>2019</u>

11. Goodwill

The effect of changes in the goodwill for the period ended March 31, 2020 is as follows:

	<u>March 31,</u> <u>2020</u>	September 30, <u>2019</u>
Balance, beginning of period	\$ 18,270,892	\$ -
Spartan Acquisition (Note 5 (a))	-	4,904,204

Balance, end of period	<u>\$ 19,711,667</u>	<u>\$ 18,270,892</u>

Goodwill is allocated to CGU's or groups of CGU's for impairment testing based on the level at which it is monitored by management, and not at a level higher than an operating segment.

The Corporation tested goodwill for impairment in the fourth quarter of the year ended September 30, 2019. Management estimated the recoverable amount of each CGU to which goodwill has been allocated based on their fair values less costs of disposal and determined that the amounts were not impaired. The fair value less costs of disposal were estimated using the discounted future cash flows for a period of up to 10 years. The fair value measurement was categorized as a Level 3 fair value based on the inputs in the valuation technique used.

The key assumptions used in the estimation of the fair value less costs of disposal relate to the discount rate (12%) and the terminal value growth rate (3%). The cash flow projections included specific estimates for 3 years and a terminal growth rate thereafter up to 10 years. The values assigned to the key assumption represent management's assessment of future trends in the industry.

12. Investments in equity method investees

The following table outlines the Corporation's investment in an associate (Kaajenga) that was accounted for using the equity method during the six months ended March 31, 2020. On December 3, 2019, the Corporation completed the Kaajenga Acquisition of all of the remaining shares of Kaajenga (see Note 5). The Kaajenga Acquisition was accounted for as an asset acquisition and the value of the Corporation's previously held equity interest has been included on a carry-over basis.

Pursuant to the terms of the Spartan Acquisition and as outlined in Note 5, the Corporation committed to providing the Sellers with MPX Bio Shares and MPX Bio Warrants based on the achievement of certain agreed sales milestones (see Note 5).

Following the closing of the Spartan Acquisition, one of the sellers of Spartan, Veteran Grown Corporation, and the Corporation entered into a substituted consideration agreement (the "Substituted Consideration Agreement") dated July 29, 2019. Pursuant to the Substituted Consideration Agreement, the Corporation issued 439,453 MPXI Shares and 64,935 common share purchase warrants exercisable at a price of \$0.77 per MPXI Share for a period of three (3) years from the date of issue. The substituted consideration agreement also reduces the cumulative sales milestones.

The Corporation was also served with a statement of claim on or about August 7, 2019 and amended on or about August 21, 2019 from the other seller of Spartan, Ninth Square Capital Corporation ("Ninth Square"). The Claim was commenced in the Ontario Superior Court of Justice and seeks damages from MPXI and co-defendants iAnthus and MPX Bioceutical ULC (formerly MPX Bio), alleging that the Arrangement was unfairly prejudicial to and unfairly disregarded the interest of Ninth Square, in the amount of \$3,000,000.

On September 30, 2019, the Corporation issued a counterclaim seeking damages in the amount of \$1 million from Ninth Square. The counterclaim alleges, among other things, that Ninth Square breached their contract with MPXI. Ninth Square served the Corporation with its defence to the Counterclaim on November 4, 2019 requesting that the counterclaim of the Corporation be dismissed.

The litigation has not progressed beyond the pleadings stage. Discoveries have not yet taken place. Accordingly, the outcome is uncertain. However, the Corporation currently believes that it is unlikely to be directed to pay anything beyond the value of the earn-outs that it has already contractually agreed to.

The impact of (the outcome of) these discussion/negotiations on the fair value of the contingent consideration is not considered to be a measurement period adjustment as it does not relate to additional information about the facts and circumstances that existed at the date of acquisition. Therefore, the impact of these discussion/negotiations on the fair value of the contingent consideration, if any, is recognized in profit or loss.

14. Contingent consideration payable (continued)

Based on current trends and historical monthly sales, the Corporation expects these milestones to be achieved in the fiscal year 2020 and 2021. The Corporation has measured the contingent consideration payable based on all milestones being achieved in advance of the expiry of the agreement in October 2022. As at March 31, 2020, the Corporation has estimated the liability at \$513,735 (September 30, 2019 - \$1,920,600) on the consolidated statement of financial position. The Corporation has used the present value method with a discount rate of 10% to measure this liability as at March 31, 2020. The fair value of the MPXI Shares is estimated using the quoted share price of \$0.13 on March 31, 2020. The fair value of the warrants is estimated using the Black Scholes option pricing model with the following assumptions: (i) expected dividend yield of 0%; (ii) expected volatilities between 95.89% - 133.32%; (iii) risk free interest rates of 0.42% - 0.46% (iv) share price of \$0.13; forfeiture rate of 0; and (v) expected life between 0.48 – 1.56 years. The expected volatilities are based on the historical trading prices of similar companies.

	Discount rate	March 31, 2020	September 30, 2019

The Corporation's expected repayments are follows:

2020	132,785
2021	<u>380,950</u>
	<u>\$ 513,735</u>

15. Promissory note

In connection with the First Growth Acquisition (see Note 5), the Corporation acquired a promissory note, with a principal balance of \$661,550 (US \$500,000), payable to Simonsberg (the "Note"). The note bears interest at a rate equal to U.S LIBOR plus 3% per annum (payable quarterly) beginning August 18, 2020 and is due on February 18, 2021. As at March 31, 2020, the remaining principal balance of \$709,350 (USD \$500,000) is recorded on the interim condensed consolidated statement of financial position.

The promissory note may, at the option of Simonsberg, be assigned, transferred, sold and conveyed in full (and not in part) to the Corporation (such option, the "Put Option") from and after (i) the date of closing the First Growth Acquisition and (ii) the date of receipt of the License. Payment for the Note by MPXI following the exercise of the Put Option by the Simonsberg shall be made and satisfied by MPXI through the delivery of MPXI Shares. The number of MPXI shares shall be calculated as the aggregate amount due, including principal and interest, divided by \$0.35, using the currency of conversion exchange posted by the Bank of Canada on the date of exercise.

The Corporation's expected principal repayments and accretion expense is as follows:

	Principal repayments	Net amount
2020	\$ -	\$ -
2021	<u>709,350</u>	<u>709,350</u>

17. Stock options

The Corporation has a stock option plan (the "Plan") under which the directors of the Corporation may grant options to acquire MPXI Shares of the Corporation to qualified directors, officers, employees, and consultants of the Corporation. The maximum number of MPXI Shares allocated to be made available to be issued under the Plan shall not exceed 10% of the issued and outstanding MPXI Shares at the time of grant. Exercise prices cannot be less than the closing price of the MPXI Shares on the trading day preceding the date of grant and the maximum term of any option cannot exceed five years.

The following table shows the continuity of options:

(a) On December 3, 2019, the Corporation acquired the remaining 80% of Kaajenga (Note 5) and issued 3,224,247 common share purchase warrants as part of the consideration. Each warrant entitles the holder thereof, pursuant to and in accordance with the warrant certificates, to acquire one MPXI Share at a price of \$0.61 per MPXI Share for a period of 5 years. The fair value of the warrants has been estimated at \$765,945 at the date of grant using the Black-Scholes option pricing model with the following assumptions: (i) expected dividend yield of 0%; (ii) expected volatility of 75.23%; (iii) risk-free interest rate of 1.48%; (iv) share price of \$0.435; forfeiture rate of 0; and (v) expected life of 5 years. The expected volatility is based on the historical trading prices of similar companies.

(b) During the six months ended March 31, 2020, the Corporation granted 8,560 common share purchase warrants. Each w entitles the holder thereof, pursuant to and in accordance with the warrant certificates, to acquire one MPXI Share at a price of \$Nil per MPXI Share and expire on December 22, 2019. This grant was recorded at \$Nil. All of these Warrants were exercised immediately.

25. Subsequent events

- (a) On June 30, 2020, the Corporation successfully closed the first tranche of its previously announced non-brokered private placement offering (the "Offering") of units (the "Units") of the Corporation. The closing of the first tranche of the Offering resulted in the issuance of 3,348 Units at a price of US\$1,000.00 (C\$1,360) for aggregate gross proceeds of US\$3,348,000 (C\$4,553,280).

Each Unit consists of one 12% secured convertible debenture of the Corporation (a "Debenture") in the principal amount of US\$1,000.00 (the "Principal Amount") and 7,000 common share purchase warrants (each, a "Warrant"). The Debentures will have a maturity date of twenty-four (24) months from the date of issuance, subject to certain conversion privileges (the "Maturity Date") as set forth in a debenture indenture (the "Debenture Indenture") entered into with AST Trust Company (Canada) ("AST"). Each Debenture will rank *pari passu* in right of payment of principal and interest with all other Debentures issued under the Offering.

The Corporation intends to use the proceeds from the Offering to fund product and facility development in Switzerland and retail expansion in Canada as well as for working capital and other general corporate purposes.

Each Debenture shall bear interest at a rate of 12% per annum from the date of issue, payable quarterly in arrears on the last day of March, June, September and December in each year, commencing December 31, 2020 (each, a "Coupon Date"). The amount of interest that becomes payable on December 31, 2020 will represent accrued interest for the period from the Initial Closing Date to December 31, 2020. All accrued but unpaid interest as of each Coupon Date shall be payable by the Corporation in cash and shall accrue interest at a rate of 12% per annum.

The Principal Amount, shall be convertible, for no additional consideration, into common shares of the Corporation (the "Common Shares") at the option of the holder at any time prior to the earlier of: (i) 6:00 p.m. (Eastern Standard Time) on the Maturity Date; or (ii) the business day immediately preceding the date specified by MPXI for redemption of the Debentures at a conversion price equal to C\$0.12 per Common Share.

Each Warrant entitles the holder thereof to purchase one Common Share (each, a "Warrant Share") at an exercise price of C\$0.20 (the "Exercise Price") for a period of twenty-four (24) months from the Closing Date (the "Expiry Date"). The Corporation and AST entered into a warrant indenture (the "Warrant Indenture") pursuant to which the Warrants were created and issued.

- (b) On June 30, 2020, the Corporation entered into a deed to surrender its lease of the Launceston Facility for aggregate consideration of AU \$53,624.
- (c) On June 15, 2020, the Corporation received a notice of default of the lease on the BioCannabis Facility.
